

Dear Esteemed Colleague in Chemical Biology,

The ChemBioVII meeting (www.chembiovii.es), the VII biennial meeting of the Specialized Group in Chemical Biology from the Spanish Royal Society of Chemistry will take place from November 18th to 20th, 2024, in the culturally vibrant city of Seville, Spain, promising to be an intellectually stimulating congregation of global significance. ChemBio VII will revolve around the latest breakthroughs in bio-mechanisms/structure-activity relationships, advancements in chemical and biophysical techniques for Chemical Biology (including NMR spectroscopy, Single Molecule, CryoEM, X-ray and Computational Techniques), and the elucidation of factors facilitating the translation from fundamental science to clinical application.

## ChemBio VII EXTENDED DEADLINES

Early registration deadline 22<sup>nd</sup> August 2024

Abstracts submission deadline: ORAL – 22<sup>nd</sup> August 2024

POSTER - 3 I st September 2024

We encourage you to seize the opportunity to be an integral part of this remarkable event. Let us come together to foster dialogue, collaboration, and knowledge exchange across various domains of Chemical Biology.

Warm regards,

ChemBio VII Organizing Committee Jesús Angulo Irene Díaz-Moreno Carmen Ortiz Mellet Pedro Nieto Mesa Elena Sánchez Fernández Juan Carlos Muñoz García Alejandra Guerra Castellano
