

**15-17 de julio 2025, Bilbao**

The IX SEQT Summer School is organized by the Spanish Society of Medicinal Chemistry (SEQT) and Faes Farma to bring young researchers working in chemistry and health sciences close to the pharmaceutical industry. This edition will take place in Bilbao, offering participants a unique opportunity to explore the latest research trends in drug discovery and development.

Workshop topics and speakers

Drug Discovery Program Introduction	To be confirmed
Target ID and Validation Strategies	To be confirmed
Hit ID and Validation Strategies	Gianluca Sbardella (EFMC)
New Technologies in Organic Chemistry and application to Medicinal chemistry	José Enrique Gómez (Janssen)
ADME properties and designing by purpose	Jordi Bach (Almirall)
Drug development & Scale up	Jacobo Cruces (Galchimia)
Regulatory Toxicology & Pharmacology	To be confirmed
Clinical development	Inmaculada Gilabert (Faes Farma)
Introduction to the Patent System	Iain A. McGeoch & Susana Egusquiaguirre (ABG Intellectual Property)
Drug Discovery Case Study	To be confirmed

Students will be accommodated in a hotel in Bilbao and the sessions will be held in Faes Farma facilities. It will create a perfect setting to connect, share ideas and engage in scientific exchange with professionals from the pharmaceutical industry. Each participant will take part in flash presentations (two minutes) and poster sessions.

The pharmaceutical environment will be experienced in tours to Faes Farma facilities.

To foster interaction with the experts, attendance is limited, so early registration is highly recommended. Don't miss out on this unique opportunity!!!
